0.0.0 Introduction

Pcounter for Sharp OSA is server software that is intended to reside on a Window server.

Pcounter for Sharp OSA is used to control walkup user access (**authentication**) to Sharp OSA MFPs as well as capture walkup usage (**accounting**) for copy, scan, and fax.

A quick technical note; MFP = Multifunction Printer, and in this instance the MFP is the Sharp OSA printer being configured.

0.0.1 Trial Period Information

Without a valid registration number, the Pcounter for Sharp OSA software runs will run with full functionality for 90 days in trial mode. During this time there are no restrictions to the software's functionality and it can be used for testing all features. At the end of the trial period a valid registration number must be inserted, or the software will no longer function until a valid registration number is entered.

1.0.0 Goal

The goal of this document is to provide a list of supported MFP models for Pcounter Embedded for Sharp OSA.

1.1.0 What is Pcounter for Sharp OSA

Pcounter for Sharp OSA is Windows server software that interfaces directly with the embedded operating system inside the MFP. Pcounter for Sharp OSA works in combination with Pcounter for Windows. Pcounter for Sharp OSA provides a point of access control (Authentication), the ability to log job based data for copy, scan, and fax (Logging), and the ability to assign page quotas or currency balances to users, debiting them for individual jobs (Accounting).

Pcounter for Sharp OSA combines all MFP print, copy, and scan data into a single log file managed by the Pcounter for Windows Data Server. Reporting can then be done quickly and easily for all job types using Pcounter Administrator and Pcounter Web Report.

1.2.0 Requirements

Please see our Pcounter System Requirements document at:

http://apps.pcounter.com/docs/pcounter_system_requirements.pdf

The Pcounter for Sharp OSA server software can be installed on Windows 2008R2 Server or any later Windows "business" operating system. Windows "Home" products that lack domain support are not recommended.

The Pcounter for Windows software (version 2.90a or later) must be previously installed, configured, and in use on the Windows print server before installing and configuring the Pcounter for Sharp OSA embedded management software on the server.

For more detailed information about Pcounter installation and administration please refer to the Pcounter Setup Guide and the Pcounter Documentation PDFs on the Pcounter Wiki at:

<https://pcounter.wixanswers.com>

Pcounter for Windows can be downloaded from <http://www.pcounter.com>

To download Pcounter for Sharp OSA please contact Pcounter support at support@pcounter.com

2.0.0 Supported Models

Pcounter for Sharp OSA supports all Sharp OSA MFPs with that support OSA 2x and newer, and have a WSVGA resolution, or better, touchscreen.

The AMX3 (External Accounting Module) enablement is required for the Sharp MFP to use Pcounter authentication and report accounting activity. The AMX2 (Application Communication Module) enablement is optional but possibly useful. If AMX2 is not present, then Pcounter applications such as Print Job Release and Client Code selection can only be done during login time.

2.1.0 Supported Color MFP Models

The following Color MFP models fully support Pcounter for Sharp Embedded.

MX-C301W	MX-3570N
MX-C312	MX-4070N
MX-402SC	MX-5070N
MX-2615N	MX-6070N
MX-3115N	MX-4110N
MX-2610N	MX-4111N
MX-3110N	MX-5110N
MX-3610N	MX-5111N
MX-2640N	MX-4140N
MX-3140N	MX-4141N
MX-3640N	MX-5140N
MX-3050N	MX-5141N
MX-3550N	MX-6240N
MX-4050N	MX-7040N
MX-6050N	MX-6500N
MX-3070N	MX-7500N

2.2.0 Supported BW MFP Models

The following BW MFP models fully support Pcounter for Sharp Embedded.

MX-B402	MX-M365N
MX-B402SC	MX-M465N
MX-M264N	MX-M565N
MX-M314N	MX-M365N
MX-M354N	MX-M465N
MX-M266N	MX-M565N
MX-M316N	MX-M654N
MX-M356N	MX-M754N
MX-M283N	MX-M623N
MX-M363N	MX-M753N
MX-M453N	MX-M904
MX-M503N	MX-M1043
MX-M364N	MX-M1204
MX-M464N	MX-M1055
MX-M564N	MX-M1205
